# BEEF

**Strength at an Affordable Price**

# Common Building Types

---

## Atlas

**Available from 24' - 108' Wide**

The Atlas Building Series defines the traditional look of fabric covered buildings. Popular applications include barns, implement and equipment storage, commercial warehouses and storage buildings.

## Apex

**Available from 53' - 100' Wide**

The Apex Building Series maximizes interior usable space thanks to its tall side walls. The slightly curved roof profile, sharp peak and standard sidewall legs give the Apex style and character, without sacrificing functionality.

## Epic

**Available from 80' - 120' Wide**

The Epic Building Series has the look of a traditional building and all the benefits of a fabric building: natural light, superior ventilation, and no interior columns. A popular style for dairy buildings, the Epic's straight wall design offers flexibility of door locations and sidewall features.

# The Ideal Choice

## Beef Cattle & Calf Barns

Our barns possess a more desirable environment for herds, providing more movement and arrangement options.

## Compost Pack Barns

Also known as compost barns or bedding pack barns, these structures offer a modular configuration and additional comfort for cattle.

## Feedlot & Equipment Storage

A sheltered space for all kinds of storage. Keep feed, equipment, vehicles, and animals dry throughout the season with a climate controlled fabric structure.

## Benefits

### Free Span Interior

Our free span interiors reach up to 200 feet wide and are easily extendable for ease of use and maximum storage capacity.

### Low Operational Costs

Natural light and airflow keeps your environment conducive to proper livestock health.

### Bright & Dry

As an industry leader, we use cutting edge technology to engineer your building to your exact site loads, location, and application.

# Customization Options

- Eave packages allow exterior place to feed herd while the feed stays covered
- Improve natural ventilation by adding opening side wall and/or adjusting roof
- Expand heights or have multiple leg heights to work with concrete foundation of choice
- Pick custom door locations to provide easy access for barn maintenance
