

EVENTS & HOSPITALITY
Endless Entertainment

Common Building Types

Apex

Available from 53' - 100' Wide

The Apex Building Series maximizes interior usable space thanks to its tall side walls. The slightly curved roof profile, sharp peak and standard sidewall legs give the Apex style and character, without sacrificing functionality.

Atlas

Available from 24' - 108' Wide

The Atlas Building Series defines the traditional look of fabric covered buildings. Popular applications include barns, implement and equipment storage, commercial warehouses and storage buildings.

Epic

Available from 80' - 120' Wide

The Epic Building Series has the look of a traditional building and all the benefits of a fabric building: natural light, superior ventilation, and no interior columns. A popular style for dairy buildings, the Epic's straight wall design offers flexibility of door locations and sidewall features.

The Ideal Choice

Entertainment Centres

Ranging from gaming centres to conventions, fabric structures can accommodate large entertainment functions with an open, inviting space.

Concerts

Fabric buildings are economical while providing abundant space with an unobstructed view for audience enjoyment.

Farmers' Markets

Well-lit fabric structures are versatile and accessible enough to act as retail buildings, flea markets or swap meets.

Benefits

Bright and Airy

Our free-span interiors reach great heights with beautiful cathedral-style options for well-ventilated, bright, and naturally lit buildings.

Superior Engineering

Our free-span interiors reach up to 300 feet wide, so you can maximize your entertainment venue's capacity.

Spacious Interior

Our fabric buildings offer more natural light and ventilation than traditional buildings, to create a healthy and pleasant environment.

Customization Options

- Add interior walls for dividers to design custom rooms inside building
- Insert controlled features such as ventilation, heating, and lighting
- Elevate building acoustics with interior insulation lining
- Design mezzanines and lean-tos for viewing areas, socializing spots
